

## **INSTALLATION RECOMMENDATIONS FOR THERMAL XTRA BOARD (TXB)**

**Thermal Xtra Board is a lightweight, non-combustible board for use to protect combustible surfaces in commercial applications, including restaurant kitchens.**

- Installation must be in accordance with AS/NZS 5601 PART 1
- It shall not be used to support a load
- Board can be cut with a sharp knife to minimise dust
- PPE Should be used at all times while cutting and installing
- General dry board installation is fine
- Construction adhesive is also recommended
- Fastener can be used, but take care with fixing so as not to break or damage the board
- If the board gets wet somehow please allow the board to dry before installation

If you have any questions, please contact Thermal Board Australia on 0 411 619 212
